

Please allow XM to keep giving the traffic & weather reports. They are the most comprehensive on the airways. Besides we are paying for these services!!! We don't like to listen to all of those commercials or have to wait 15 minutes for an update on the traffic!!! What's the beef??? I can't dial up a station on am or fm to find out what the weather is like in the cities i am traveling to!!! XM provides this service!!

The NAB is just upset that they didn't come up with the idea of XM or XM TRAFFIC!!!

PLEASE LEAVE XM TRAFFIC ALONE AND ALLOW THEM TO CONTINUE!!!!
